

ELEMENTS ADVISORY

18/01/2022

## New notification procedure for notifying biocidal products in Germany from 1 January 2022

**Existing notifications** will be transferred to the new notification procedure. They should be supplemented with new information (see below) by the applicants.

- For biocidal products notified before 26 August 2021, a **resubmission with new requirements is required by 31 March 2022.**
- For all biocidal products notified after that date the resubmission should be done by 31 March of the second calendar year following the notification

### Additional information required for resubmission or new notifications:

1. **Active substance concentration** in the biocidal product.
2. When the active substance(s) in the biocidal product have been approved under the BPR and when the biocidal product dossier is under evaluation, the **details of the BPR registration** (e.g. case number (from R4BP), date of submission, type of authorization) need to be provided.
3. Confirmation that the active substance supplier is on **Art95 list**. Documentation is not required at notification, but the notifier must be able to provide proof to the monitoring authorities when they request it.
4. **Efficacy** of the product for the claimed uses should be available on request, but not submitted at the notification procedure.

### Updating and communicating information on biocidal products:

- Applicants will have to **update their notifications if there are changes** to the information provided without delay.
- Confirmation of the notification must be done **every two years.**
- A notification procedure according to which the **annual quantity** of biocidal products made available on the market or exported on the market in Germany must be submitted. The notification must be made electronically by 31 March of each year to BAUA. This will be available from the beginning of 2022.

### Adjustment of electronic form to submit notifications

- The new requirements require some changes to the existing electronic form.
- The old electronic form will no longer be available from 27/12/2021.
