

Job offer -
Senior Regulatory Affairs specialist
Biocides

Elements Advisory helps companies market biocides that are safe for humans and the environment. These products need to comply with the Biocidal Products Regulation (BPR, EU 528/2012). By joining our team, you will learn about regulatory human and environmental safety, an ever-growing market. Our office is Ghent-based. More information on our company can be found here: www.elements-advisory.be

We are looking for a colleague who would help with:

- Regulatory dossier preparation
- (eco)toxicological risk assessment
- Monitoring studies
- Regulatory compliance

We offer:

- Pleasant working environment
- Flexible working conditions
- Young and dynamic team
- Personal growth possibilities

Your profile

- Master of Science (interpret broadly, example Bio-engineer, Chemist) or PhD
- > 3 years experiences with BPR
- English communication skills
- Eager to learn
- Like to work independent and has team spirit

Key terms: regulatory, biocides, toxicology, risk assessment, product safety, consulting
